Option Wizard[™] Online 2000 Adds New One-Click Watch List for Stocks, Options

CHICAGO -- Option Wizard[™] Online 2000 adds a new drop-down box that provides automatic options analysis for 20 ticker symbols. As a result, options analysis has never been faster or easier.

Here's how it works.

In worksheet XYZ20, enter 20 ticker symbols, stocks and/or indices: e.g. AOL, AMZN, BRCM, \$INDU, etc.

Select "Refresh Data". Accessing pcquote.com, Option Wizard Online gets full name and price data, last sale price, (and not shown here) net change, open, high, low, volume, time, number of outstanding shares and market capitalization.

Jump to worksheet Option Wizard Analytics, select any of the 20 tickers from a drop down list.

Option Wizard Online 2000 accesses last sale price and volatilities to provide comprehensive options analysis: fair value option price, 110 price-time variants, percent-to-double, in-the-money probabilities, delta, gamma, vega, theta, rho, 20-50-100 day historical volatilities and current and calculated implied volatility (the latter with one button click).

The new drop-down box is available in Option Wizard Online Real Time or Option Wizard Online Delay. Option Wizard Online Real Time accesses PC Quote MarketSmart perhaps the best value in Real Time (snapshot) financial data: \$9.95 per month (plus exchange fees)

A free and fully functional delay trial is available at <http://option-wizard.com>.

Option Wizard debuted on the worldwide web in August, 1995, and quickly won a worldwide audience of adherents who wish to do options analytics and technical analysis in a familiar and customizable Microsoft Excel environment. (Microsoft Excel is the program of choice among many top Wall Street institutional financial and options analysts because it can be customized.) The Option Wizard web site offers a world of options information and links.
