Option Wizard Online Links to CBOE \$7 RT

CHICAGO -- Option Wizard Online introduces Option Wizard Online for CBOE Real Time.

This new version accesses new and popular \$7 per month Chicago Board Options Exchange Real Time data service. Exchange fees are additional.

Option Wizard Online offers client three levels of data service:

STREAMING. Real time DDE versions for eSignal, myTrack, PC Quote 6.0 and quote.com.

SNAPSHOT. Real time CBOE and PC Quote MarketSmart versions.

DELAY. Free data from PC Quote.

Option Wizard Online is reviewed in the April, 2000 issue of Technical Analysis of Stocks and Commodities.

Option Wizard, and its companion module, Backtest Wizard, debuted on the worldwide web in August, 1995, and quickly won a worldwide audience of adherents who wish to do options analytics and technical analysis in a familiar and customizable Microsoft Excel environment.

Microsoft Excel is the program of choice among many top Wall Street institutional financial and options analysts because it can be customized.
